

ly, to his adopted country. In the words of the poetry, the electors of Essex had made a grand stand to turn out the grand state society, and right heartily had they done the deed. Arranging this magnificent banquet the committee had arranged it, they had, in congratulating the party, their success in the recent struggle simply paid a fitting compliment to our political leader. He (Mr. G.) said he could never repeat all the beneficent acts of Sir John Macdonald. He was gifted with talents that fell to the lot of but few of our race, and he never used them unselfishly in any

special interests of our common country. He has since, ascending the pinnacle of fame, been abused and maligned, but time has avenged his wrong again, after a period of darkness, and placed him in the position for which he above all others pre-eminently qualified. His traducers from Victoria to Halifax were now beaten, and the good people of Maidstone had contributed the quota of "celat" to the universal wave. Sir John may have made mistakes such as are common to the lot of mankind, but he was never selfish—

worked in order for his relations—
and was, therefore, the beloved of
grateful nation. We could, in time
past, see the admiration of other na-
tions for our institutions and our pros-
perity. Had Sir John been selfish or
sectional and not loved Canada as a
united nation, his personal aggrandize-
ments would, at this hour be of
large account. He was a noble in
politics as were Wolf and Montcalm in
battle, he always avoided sectional
ties, and saw nothing but the unity
of the British North American pro-
vinces as deserving of a Canadian po-
litical and patriotic.

In proposing the health of "The Guest of the Evening," the chairman said Mr. Patterson was not a stranger—represented as he was in the North Riding for some years—and had done his duty well. So high a regard had the people for him that they could not allow him to finish his term; they desired his services for a nobler cause than the mere stroking of man, under the influence of two governments, to defeat Mr. McGregor and the people he had been disappointing. He *is* a kindly old fellow, coming into the breach, and won the confidence of all. It was with a debt of gratitude to Mr. Patterson for assistance in all cases of emergency.

Song—"He's a Jolly good Fellow."

On rising, Mr. Patterson was again loudly cheered. He said Mr. Chair-

ly good-dow, the enthusiasm displayed there this evening could not fail to make me one. To attempt a lengthy notice of the stage of the evening's proceedings would be to overstate the case under the circumstances, as each one of the previous speakers had taken a portion of his contemplated speech, and he was, therefore, left now to himself to make a brief resort. On entering on the subject of the evening, he brought to a close, he did not entertain any share of the fears which were alluded to by the previous speakers, as he had a conviction from the first that the members of the Society were capable of discriminating between the legislation and beneficial policy of Sir John Macdonald and his colleagues, and the pernicious influences of the self-seeking incapables who had just

may have given his personal preference or remaining in the Local House, it was overcome by his sense of duty, and when his friends in the county felt that he should serve them as their standard bearer in the struggle for the Commons, he yielded to their wishes, and embarked in the contest without serious doubt as to the results. In the Local House, by an imaginary boundary as to Ridings, he had been separated from a portion of the county, and, therefore, from some of the most intelligent electors of the country, but he long since knew that all the county was united in a common purpose—that the hearts

ity to manifest their disapproval of them in their administration, and he felt that he would have been ungrateful had he not yielded to their wishes, stepped into the breach, and carried the old standard for them to victory once more.

We were not met to-night to celebrate a triumph—not a mere party triumph, but a triumph for the people, the upspringing of the people against their oppressors. He (Mr. P.) did not take to himself individually the honor which they were conferring on him to-night, but he took it to them by the principles which he represented. His mottoes were the mottoes one which he looked upon as containing the very essence of Conservatism, "One Country, One Flag, One King."

that spirit had been in the past, and would be in the future, the great aim & object of the Conservative party. The coming government would shew that was a party government in the nobler

LOCAL MATTERS.

The digging for the foundation of the new postoffice has been begun.

Chancery Court yesterday. Vice-Chancellor Proudfoot presiding.

Those waiting railway or steam tickets, should read Mr. Leary's advertisement.

Mr. Joseph Winters, of Sandwich, has sold his "Butcher Boy" to a party from Port Huron. Price, \$225.

The Australian cricketers left San Francisco in the "City of New York" on Monday for their native heath.

G. T. Davis, besides having a large contract for lime for the new P. O. building, has received an order from H. Walker, Esq., of Walkerville, for 400 barrels.

A. Crawford, Esq., is building two brick residences on Crawford avenue. It will be desirable to have the road that beautiful thoroughfare improved.

CAPT. McLEOD, late of the "Princess Alexandra," who had been for a few days confined in the Sandwich goal as insane, was liberated on Saturday. Dr. Casgrain and Coventry examined him before Judge Leggett and pronounced him fit for liberation.

On her upward trip Monday, the steamer "Quebec" was stranded near Horn Island, and received serious injuries. The steamer "Ontario" removed the passengers, landing all safely at Sarnia.

VOLUNTEER COMPANY.—On Friday night last our volunteer company held a meeting in the town all for the appointment of officers. The following gentlemen were selected.—Jas. Gullott, Captain; Chas. Macdonald, 1st Lieutenant; John Armour, Jr., 2nd Lieutenant. The company is one of many promises.

A YOUNG BEAR.—During the last few days Mr. J. Winters, butcher, has had on exhibition at his shop the carcass of a young bear, shot by John Thrasher, of the 11th concession, Colchester. It was probably 8 months old and weighed about 40 pounds.

We keep all the necessary Customs bills at the REVIEW office. Parties requesting the same for entries can get them at one quarter of the price charged by the Customs House brokers. Merchants and others should bear this in mind and give a call.

FAST TIME.—The steamer "Conal," Capt. Eva, one day returned from the round trip from Windsor to Detroit and return in the short space of 15 hours and making all the usual stops, and giving a call.

ON Wednesday the Rev. W. Ayers, called for a trip through Illinois and Wisconsin. He is expected to be gone about three weeks. The Rev. Mr. Tredway will officiate in his place, in the Bible Christian Church, on Sabbath, and the service on the following Sunday have been provided for.

On Monday morning last Mr. G. Taylor's residence, on Goyean street, caught fire. As much time was spent before the fire companies were informed of the state of affairs, they reached the ground too late to render any further service than save the surrounding buildings. Mr. E. Bennett was the owner of the building, and his loss is about \$1,600, with one-third insurance.

A fire occurred between 10 and 11 o'clock Thursday morning in a house belonging to Mr. Arthur Morris, No. 115 Mercer street. It originated through a defective chimney. Mrs. Morris was ironing at the time and did not know of it until some men who were putting up a fence across the road came in and told her that the roof of the house was on fire and at once proceeded to take out the furniture. Through the prompt action of the firemen the flames were soon subdued. The entire roof of the building was destroyed, but the loss is covered by insurance.

On Monday last two sharpers got on the G. W. train going east, at this place, and shortly afterwards got into conversation with an old farmer whose name was unable to remember. They were "short of change," and asked him to change a bill. To be obliging the gentleman told him to get out, and the sharpers perked in from him and leaped from the train which was going at a moderate pace. As the ponies were soon out of sight, no effort was made to catch them. The old man vowed he would never again take his broker's shop on the train with him.

DROWNED.—A most melancholy and fatal drowning case occurred on the Detroit River, on Tuesday last, about eight o'clock, when a young man, aged 21, who was a student at the University of Windsor, Edw. Ryan, an old resident, was the unfortunate man. About noon on that day he accompanied to cross the river in a row boat from the Detroit and Milwaukee depot, where he had been employed for about ten years, and in doing so attempted to pass the bow of the Great Western steamer. The captain, seeing the danger before him, reversed both engines, and might have prevented a collision and loss of life had Ryan not become frightened when on looking around he saw the steamer nearly upon him. Thus frightened, Ryan jumped from his boat and sank at once. Life preservers were thrown out, but of course were of no service. He leaves a wife and two children behind him, and, fortunately for them, they will receive \$1,000 life insurance, the policy for which he had taken out one month before. Up to Thursday the body had not been found.

THE ELECTION.

We are, at writing, unable to give the total number of votes polled, but the majorities are as follow, electing Mr. White by 687—White's majority in Tilbury West was 128, Rochester, 99; Middlesex, 110; Sandwich East, 166; Sandwich West, 49; Sandwich Town, 11; Windsor, 134. Total, 687. Mr. Rankin's majority in Belle River village, 1.

POLICE NOTES.

E. Allen, charged with obtaining a watch unfitted from Frank Schmidt, was acquitted.

H. Rivard, of Sandwich East, was fined \$2.50 and costs for an infraction of market by-law—selling goods without first paying the market fees.

Sarah Cardwell, drunk, went up for 21 days, she having no money to pay a fine of \$4 and costs.

H. Offet, for buying a load of wood 10 a. m., he being a dealer, was up before the mayor, but had his case adjourned.

Two lime kilns in full blast at the west end.

James Dunbar, late of Amherstburg, is opening up a new bakery in town.

If you drop into Leslie's drug store, you can hear "der band of music blay." It is a mammoth music box as long as a church organ.

Some thief stole a tug whistle from Odette and Wherry's ware room Tuesday last. If caught he will yet pay dear for that whistle. So says the Book.

McKee Rankin has imported from France a beautiful dapple grey Norman stallion, which stands 17 hands high and weighs 1,800 lbs. He is keeping him at his father's place in Sandwich West. He cost \$2,000.

Mr. E. Watson, Indian Agent, visited the Wyandots, of Anderson, on Wednesday last week and paid them their interest money, amounting to \$15.35 per head. After transacting other business, Mr. W. left for home, and the descendants of the aborigines feel very much gratified.

CORRESPONDENCE.

(From our Special Correspondent.)
To the Editor of the Essex Review.

It is with pleasure that your Correspondent writes to you, and in this country has the advent of a new paper published in the interest of the new Ministry, and which ought to attract a large circulation. The fine clear type, the choice variety of the miscellaneous news, and the miscellaneous Conservative tone of its editorials, all lead us to recommend it to all good loyal Conservatives. Our esteemed member of parliament, J. C. Patterson, Esq., during the recent session of the Ontario Legislature, party "Her Majesty's Loyal Opposition," and always referred to his party by that name. The seventeenth of the month of October, 1878, the Hon. Mr. Patterson, Esq., in his Majesty's Loyal Opposition to her Majesty's Loyal Government, and it is pleasing to see the cordial support that is being given to the Cabinet at Ottawa from all parts of the Dominion, and how patiently the country waits with confidence the introduction of the proposed National Policy. The very name is sufficient to invite confidence, but it deserves a double force by reason of the tried character of the men, to whom the task of developing it has been committed.

In this ancient town there is not much news of special interest, the merchants complain of dull times and poor prospects, and yet they have no ferry boats to convey the inhabitants of the "Burg" across the river to spend their spare cash in American wares, as the Windsor merchants have. The farmers of this neighborhood also complain of light crops and low prices; if the complaint now, the poor laborer may have more reason to complain before winter is over. But, however, let us trust in Providence; it is not good to deplore imaginary evils, even when they will come in true earnest, but a little charity from those who have plenty will make the heart of the unfortunate glad, so let us hope that after all the winter that is about to begin, will not be harder to bear than many that have preceded it.

The educational interests of the southern division of the county have taken a new impetus since D. A. Maxwell, Esq., the new Inspector has taken charge of the Southern Inspectorate. The South Essex Teachers' Association will hold their next meeting at Kingsville, on Friday and Saturday next, November 1st and 2nd. I hope to be able to send you an account of its proceedings.

Major Lewis addressed a meeting of young men a few evenings ago relative to forming a military company; it is thought that such a company will be formed in the course of a week or so. The boys of the Separate School have the drill taught them by their master, they make a very creditable appearance on the street, and march with considerable precision.

What is wanted here at 75 cts. per bushel; oats, 22 cts.; corn, 38 cts.; dressed pork \$4 to \$4.25 per cwt.

Wishing you success, I close my first, promising an occasional letter if agreeable. Yours truly,

SALCA.
Amherstburg, October 28th, 1878.

SPECIAL NOTICES.

Our Coffees are fresh and ground strictly pure, at the Peoples' Tea Store.

Finest Young Hyson, 60 cts. Finest Gun Powder, 70 cts. Extra Choice Java, 50 cts.

The Essex Review.
T. M. White, Editor and Proprietor

WINDSOR, DEC. 25, 1885.

Would it be in order to say that

Mr. Blake has "skulked" into Canada

via New York? At any rate the so-

called Nationalists at Montreal and

Quebec have been awaiting his arrival

among them; but he went round by

another way. Was it the small-pox

that he was afraid of, or did he feel

that Mr. Laurier's position in support

of Riel and his doings was equally

pestilential?

Mr. Mowat must be about the

scariest man in Ontario; that the li-

cence question has been decided

even though that decision gives to

his government the right to control

all liquor licenses issued in the pro-

vince. It takes away his political

capital. He loses an effective argu-

ment with which to move the heart

of Ontarion—O, Ontarion—O.

The streams bill, the boundary award,

and the liquor question all being

settled—what will he find now to fight

St. John MacDonald with? He has

even lost the old stand-by, the cry

of French domination, as his party

in Ontario have offered to make a

any concession to the French Can-

adians that may be required in re-

turn for their support.

THE RIEL ISSUE.

From the Guelph Advertiser.

"How dare the London Advertiser

mention the murder of poor Scott in

connection with the latest drift shift

for storming the treasury benches on

a side issue. No one knows better

than the Ann Arbor philosopher that

the murder of Scott was condoned by

TOWN COUNCIL.

An adjourned meeting of the Town

Council was held in the Council room

on Monday evening last.

Present—The mayor, F. Cleary,

Esq., in the chair, and Councillors

Blanning, Rocheleau, Sennar, Mc-

Laughlin, Bangham, Bloor, Fox and

Barlett.

The mayor stated that the meeting

was held for the purpose of enabling

the court of revision on the different

sewers to meet.

The special committee appointed to

consider the proposition of the county

Council for a continued separation of

county and town, reported as follows:

Windsor, Dec. 19, 1887.

To the Mayor and Council of Windsor.

GENTLEMEN—Your special committee

appointed to take into consideration the

report of the Finance committee of the

county council upon the conditions upon

which the County Council, separation

from the jurisdiction of the county would

be granted, beg permission to report as

follows:

1st. That having fully considered the

conditions set forth in the special report

of the Finance committee of the county

council adopted on the 13th June last, and

submitted through the county clerk to the

Council of Windsor on the 19th Sep., for

the withdrawal of the town from the county

for a term of five years, we have

arrived at the opinion that the said con-

ditions are of a nature to render them

wholly unworkable.

2nd. That it is evident that the

conditions being appointed, and their failing

to agree upon conditions; or if the county

council neglect or refuse to appoint a

committee for the above stated purpose; we

that by a majority vote they

could have them read now.

On motion of Mr. Bangham,

seconded by Mr. Fox, the council

determined to hear the letters.

1. From George G. Booth, of the

Barnum Wire & Iron works, stating

that he had seen an advertisement in

the Globe from the McLaughlin man-

Co., of London, (a copy of which he

enclosed) asking municipalities to

make offers to build a canal at a cost

of all or part of their foundry business

from London. They were desirous

of securing a good shipping point.

Mr. Booth thought Mr. Wicks would

suit the company, and requested the

council to consider the advisability

of erecting and allowing the com-

ment of free building costing.

The company would employ

120 men and be more.

The principal article of the

would be stores—Referred to

Finance committee.

2. From Adjutant of the Seventh

Regiment of London.

Copy of Resolution passed at the

first meeting of the officers of the Seventh

Regiment, their return from the North-

west, held at the orderly room at the

1885.

"Resolved, that the officers of the

Seventh Regiment of the North-

west, since their return from the North-

west, desire to see their appreciation

of the way to their friends

in so many ways, that the comfort

of the family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

family, and the comfort of the

AT

AMHERSTBURG.

Mr. Walter Boyle of Gesto, the tallest man in Essex Co., measuring 6 feet and 8 inches, paid Amherstburg a visit Thursday.

Several arrests were made on Sunday night by the "General" for disorderly conduct on the street. The captives were brought before Mayor McGee and Justice Gott on Monday and were all fined. We again advise the boys that the "General" means to keep order.

Messrs F. E. Bell, Nassa, McCurdy and John Lowe, of the public school board are the retiring members for this year. Nominations to fill the vacancies thus created will be made on Wednesday the 30th, and the elections on the following Wednesday, the same date as the Separate School election.

Capt. Nelson J. Wigle, of the steamer City of Dresden, has leased several of the docks on the lake shore route and intends having them put in thorough repair for next season's business. Both the Pelee Island docks are now under his control.

Denis Barron went to Toronto on Tuesday, and before his return, will visit some of the leading manufacturers of milling machinery, with a view of ascertaining on what terms he can secure the necessary outfit for building a mill here, should the prospects be favorable in the spring.

Sharpe Butterfield started to cross to Amherstburg from Bois Blanc, in a row-boat, last Friday morning, when he was caught by the ice, and was in danger of being carried out to the lake and lost. Andrew Hackett observed his danger and gallantly went to the rescue and succeeded in saving Butterfield from a horrible death. His family were greatly rejoiced at the old gentleman's escape.

B. G. Burleigh, M. P. elect from a Scottish burgh in the new British Parliament, is charged with acts of piracy on the Detroit River, about September 18th, 1864, and cannot get his credentials in consequence. An investigation is now in progress. The facts appear to be that Burleigh got on board the side-wheel steamer Philo Parsons, on her leaving Detroit for Sandusky, about the date mentioned, that he was joined by J. Y. Beall and other companions at Sandwich and that an old trunk full of arms was put on board at Amherstburg. After leaving Amherstburg, the arms were distributed and the Parsons was seized and headed towards Johnson's island, where she was to co-operate in an effort to release the Confederate prisoners held there. The scheme was a failure, the plot had been discovered and although the machinery of the United States steamer Michigan had been disabled and the prisoners on quiver, the discovery was in time. Beall and Burleigh turned the Parsons eastward, and scuttling her near the mouth of the Niagara river, left her to go over the Falls. Beall was captured and subsequently hanged on one of the islands in New York bay. Burleigh was also taken and lodged in Fort Delaware, from which he escaped and came to Guelph, and afterwards went to England. The gentlemen who had acquaintance with Burleigh have been asked to submit affidavits of their knowledge of him. Among those who knew him well in Sandwich was McKee Rankin, the actor.

Support home industry by buying your holiday cakes and confectionery at P. H. Luther's, the leading confectioner of Windsor.

Ladies, go to the Dominion Corset factory for your corsets. Made to order.

ESSEX CENTRE.

Mr. Frank Lute, of the M. O. R., has obtained leave of absence for two weeks during the holidays. He will spend some time in Chatham.

The Masonic fraternity of Essex Centre have moved their hall apartments to the handsome new quarters laid out for them in the Dunstan block. It is said there is not a finer Masonic hall in Western Canada than this.

A notice is published in the Leamington Post to the effect that the Leamington & St. Clair Railway Co. will make application at the next session of the Ontario Legislature for an Act to extend the time for four years from the 10th day of March next for the completion of the Leamington & St. Clair Railway.

The following officers were elected for the year 1886 at the regular meeting of Central Lodge A. F. & A. M., held on Monday evening last:—Worshipful Master, Daniel Welsh; Senior Warden, A. H. Clark; Junior Warden, W. H. Richardson; Secretary, John Dewar; Treasurer, E. Dunstan; Chaplain, Rev. C. J. A. Batstone; Tyler, W. Hatch.

The following among other names are mentioned as probable candidates for councillors of the village for the ensuing year: Ed. Stone, James Naylor, T. B. Scott, W. R. Elliot, John Thorne, and A. J. Green. The present council, except Mr. Delmore, who has decided to retire from the field, and will probably seek re-election. Little interest is being taken in the Reeveship as yet.

No. 3 Company of the 21st Essex Battalion have completed arrangements for holding a grand military concert, accompanied by tableau-vivant, in Peck's Hall, on Monday evening next, December 21st. A fine selection of quartettes and solos will be given by well known talent, and Prof. Crocker, in his cornet solos, as well as the Essex Centre Brass Band, will contribute to the programme. Readings and recitations will also be given. A squad of the volunteers will go through the bayonet exercise, and the tableau-vivant will consist of the charge of Batoche, in two scenes, and Canada's Defence. John Milne, Esq., will occupy the chair. A rare treat may be expected. Programme will begin at 8 o'clock sharp. Admission, 25 cents.

Mr. Frank Lute, of the M. O. R., has obtained leave of absence for two weeks during the holidays. He will spend some time in Chatham.

The Masonic fraternity of Essex Centre have moved their hall apartments to the handsome new quarters laid out for them in the Dunstan block. It is said there is not a finer Masonic hall in Western Canada than this.

WINDSOR SALT COMPANY

THE LARGEST SALT MANUFACTURING ESTABLISHMENT IN CANADA.

Their Present Facilities Adopted After Years of Experience and Scientific Research. Enable Them to Turn Out a Salt Unexcelled in Its Excellence and Purity.

Among the many large business industries of this city, the Windsor Salt Company certainly holds pre-eminence, and not only is it the only salt manufacturer of Essex county but it is also the largest in the Dominion. As yet, no other plant in years of existence, is a commercial plant in the volume of business transacted, for its products are handled by every wholesale and retail grocer in Canada which means that this company helps stock nearly every table in the entire country. This is a broad statement but it is a fact.

In a nutshell the great business of this great country is the result of the excellent quality of their goods.

In the salt business, as in other lines of trade, the individual, company or corporation which succeeds in doing the greatest amount of business is the one that judiciously produces an article of unexcelled quality. And it will always go unchallenged that Windsor salt stands at the head of the world's salt production.

The company was organized and incorporated six years ago with a capital stock of \$500,000 and the wheels of the present large plant on Sandwich street west and the Canadian Pacific railway, were put in operation in 1904. Wells that reach into one of the best and largest salt beds on the continent have been utilized to furnish the raw material and it has been estimated that thus far nearly two million barrels of salt have been taken from mother earth by this company and refined for the delectation of the Canadian people.

It has been said that "farming is a science" and the same can be truthfully said of the manufacture of salt. Were it not for the years of experience and scientific research indulged in by men of brains engaged in the salt industry we would today be scraping a piece of natural rock salt in our endeavors to secure the palatable saline ingredient so essential to the healthy human constitution. As it is we are enabled through the aid of the Windsor Salt Co. and others to easily and conveniently satisfy the demands of nature.

A thorough discussion of the scientific process by which the Windsor Salt Company turns out their high grades of salt is unnecessary; suffice to say that up to the time that the Windsor Salt Co. entered into a practical demonstration of their

the best salt for butter they have tried. The company also has many valuable testimonials from proprietors of large hotels, cheese manufacturers and prominent firms throughout the country, and during the past five years have received gold and bronze medals and diplomas from the leading provincial exhibitions, held in London, Toronto, Quebec, St. John, N. B., and other cities.

Their higher grades are all marked with their "registered" trade mark. While the different grades of salt made are packed in a variety of packages, each to the best of its kind.

The officers of the Windsor Salt Co. are: Sir Wm. Van Horne (of Montreal), President; Ernest G. Henderson, Esq. (Windsor), Vice-President and Manager; and Thos. Tait, Esq. (Montreal), Secretary and Treasurer.

WALKERVILLE BREWERY.

An Institution Which Has An Annual Output of 150,000 Barrels.

As well as being noted for the excellence of its whiskeys Walkerville is no mean competitor in the beer field. Among the large institutions in the little Windsor suburb is the Walkerville Brewing Company, located on Fifth street.

It was established in 1890, and though of recent years its output has grown to be one of the leading industries. It is incorporated under the laws of Ontario and is capitalized at \$50,000. The directors and present officers are: E. Chandler Walker, President; William Altmann, Jr., Vice-President; J. Harrington Walker, Treasurer; F. H. Walker, Director; and S. A. Griggs, Managing Director. Mr. E. W. Ban- slugh is Secretary of the company. The establishment is located on the Grand Trunk and Lake Erie & Detroit River Railroad. It has an annual capacity of 150,000 barrels. The plant covers six acres. The Walkerville Brewing Company are brewers of superior light beer, pale St. George ale, Red Key ale, XXX porter and Brown Stout. The plant includes an ice machine with a daily capacity of 75 tons. The company also operates a bottling branch in Detroit, which

covers 20,000 square feet of floor space. It is located at 134-140 Beaudin street. The officers and directors of this company are connected with most of the prominent enterprises established by the sons of Hiram Walker, and are known only by men of ability, energy and push, as is evidenced by their immense holdings in and about Walkerville.

Two years ago Mr. McKay purchased the Windsor institute and has been keeping up the good work of reform. Not only does the institute cure the drink habit but morphine users, opium fiends, inveterate tobacco and cigarette smokers are cured.

If you have a friend and that friend is a slave to these powerful narcotics refer them to the Monroe Improved Gold Cure and you'll be doing them an everlasting kindness. Write for circular containing the happy words of the recovered.

Meisner & Klier.

In 1893 the firm of Meisner & Klier moved their large bottling plant from Stratford to this city, and with time they have developed a large and increasing trade in Windsor and vicinity. The members of the firm are Geo. Meisner and John H. Klier, and their works are located at the corner of Glenagray ave. and Albert street.

Well equipped with improved appliances and machinery, including two gas generators and two water cylinders; also bottling apparatus, etc. Their specialty is in manufacturing the "Club Soda" and "Aqua Ale" which has an excellent reputation with the general trade, being sold by all hotels and retail dealers in the city. The firm has been through the good business in that line. Two wagons are constantly on the road, one for delivery and their business as a whole is the largest in this line in Essex county.

ORE BROTHERS.

Hustling Proprietors of the Windsor City Roller Mills.

Two of Windsor's most enterprising and progressive business men are the well known Orr Bros., Matthew and William, who conduct the Windsor City Roller Mills, at the corner of London and Church streets.

Their trade of Orr Bros., besides operating in Windsor, Walkerville and Sandwich extend to many points in Essex county,

their patronage among the farming community being exceptionally large. Since the establishment of their present business ten years ago, Orr Bros. have become known as two of the best citizens of the town, being identified with every movement of public interest.

MONROE'S IMPROVED GOLD CURE.

A Few Words About the Famous Treatment.

Some years ago when the wonderful discoveries for the treatment of alcoholism were first made public the specific introduced by Dr. Frank Monroe, of Jamstown, N. Y., created as much interest in medical circles as did that of the much advertised Kewley, of Dwight Ill. Dr. Monroe's cure had only to be applied to establish its efficacy. It was first tried on some of Dr. Monroe's neighbors, at his summer home at Bonnet Point on Chataqua lake. He turned his cottage into a sanitarium where a half dozen or more of the heavy drinkers of Bonnet Point were treated. The doctor and his wife, who is also a physician, watched over the patients night and day and the result was one of intense success.

Another band for human misfortune had been discovered. The doctor and his wife, who is also a physician, watched over the patients night and day and the result was one of intense success.

AXFORD FENCE MACHINE CO.

MANUFACTURERS OF THE CELEBRATED "AXFORD" WIRE FENCE MACHINE.

They Have Revolutionized Fence Building By Their Device Which Meets All Requirements and Costs But a Trifle.

The Axford Fence Machine Co. is practically a new addition to the business interests of Windsor although the company is well known throughout the province. The business was founded in Detroit several years ago and since that time Mr. N. E. Sherwood has purchased the Canadian patent of the Axford Wire Fence Machine and for the past two years has been manufacturing the same in the interest of the business, with headquarters at 127 East Sandwich street. So favorably has the Axford Machine been

received when exhibited, that the company have agencies established throughout the entire province and will in a short time equip and open up a large plant here for the manufacture of the machines.

Farmers have long been looking for a fence machine which is at once strong, simple, practical, light and easy of operation, which will build a fence quickly and to build or repair their wire fences. The Axford machine meets these requirements. It is practically indestructible, being made of steel and nickel-plated, and is so simple that a boy can work it. The work is done by a single man, and any machine in the market. It is not cumbersome—weighing only two pounds and it is inexpensive.

This machine is a device for attaching cross wires in repairing or building wire fences after they have been stretched and stapled to the posts.

With the Axford Machine one can put on cross wires of any desired size, so tightly that nothing can slip them or get them out of place so tightly as to anger, as the machine has a tension device by means of which the tightness in tying the cross wires may be increased or diminished according to the size of wire used in the red oak frame.

The Axford is the only machine made that provides for this, as with other machines the tightness with which the wire is wound round the lateral wire depends entirely on the stiffness of the machine. The end-on the machine does away with spools or ciling devices, and it is not necessary to remove it from the machine while being filled.

Mr. Sherwood has highly rated over the fact that the Axford machine has received, there being no other in the market at any price that can do the same work. Anyone interested in wire fences would do well to call at the company's office, 127 Sandwich street west, and witness a practical demonstration of the working of this famous machine, or drop a card for illustrated literature and prices.

With this machine a fence can be built at a low cost which will arm small as well as larger stock, by running on short cross wires, at the bottom of the fence, alternating these with the full length cross wires as desired.

Clipping a fence built with the Axford machine will not injure it, for any pressure on or against the fence causes the cross wires to bind all the tighter. The machine will work on either cable or twisted wire.

The company also manufactures wire tighteners one of which will tighten 120 rods of wire. This is a new device in itself and readily commends itself to farmers and stockmen, as a fence can be kept in proper shape by its use. These tighteners possess many points of advantage over any other in the market, for instance: they can be placed anywhere in the fence and thus avoid boring holes in the end post. With other tighteners which are placed on one end post they stretch the wire the full length of the fence, and if it is a long stretch, the fence will be tighter at the end than at the other end, and the tightness is not uniform in the middle of the fence, they stretch only half the distance, stretching both ways, and the fence will be equally tight at each end.

Mr. Sherwood has highly rated over the fact that the Axford machine has received, there being no other in the market at any price that can do the same work. With wire. It holds 100 feet of No. 12 wire, which may be entirely used, with no waste of wire.

With the Axford machine anyone may build a wire fence at a cost of from \$2 to 20 cents a rod up, according to the number of wires used, and fence may be of any desired height.

One man can weave from 50 to 60 rods of cross fence in a day, putting on cross wires from 15 to 20 inches apart. The lateral wires may be from three inches to any distance apart, and the cross wires from one inch to any desired "paces."

With this machine a fence can be built at a low cost which will arm small as well as larger stock, by running on short cross wires, at the bottom of the fence, alternating these with the full length cross wires as desired.

Clipping a fence built with the Axford machine will not injure it, for any pressure on or against the fence causes the cross wires to bind all the tighter. The machine will work on either cable or twisted wire.

WINDSOR SALT CO. BLDG.

theories regarding salt manufacturing by the opening of their plant five years ago, there was very little salt available for dairy and table use in Canada. The so-called dairy and table salt previously made was a "ground" salt and very often impure. The grinding of the salt destroys the natural crystals and uniform grain so desirable in butter and cheese making, and makes salt more liable to absorb moisture and "cake," such a disagreeable feature in table salt.

Recognizing the demand for an absolutely pure, uniformly grained, readily soluble table salt, the Windsor Salt Company provided and put in operation facilities for making salt by a new system, known as the "vacuum process" whereby this demand might be supplied. By this process the salt is not hauled from the time it leaves the salt bed, 1,200 feet beneath the surface of the earth, until it is packed ready for shipment, except by the machinery of the factory, thereby ensuring cleanliness. Windsor salt is manufactured from the "purest" salt deposit on the continent, and is not made in open pans or tanks, but the purest distilled brine is pumped to large patent vacuum evaporators, from whence it is conveyed to the dripping dish (or patent dryer), afterward to the shifting rack and finally to the package.

The Dominion dairy commissioner, P. J. W. Robertson, testifies that it is being used in all of the Dominion dairy stations, and they have found it to

covers 20,000 square feet of floor space. It is located at 134-140 Beaudin street. What are, without doubt, the finest stores of offices in the city, those of the Windsor Natural Gas Co. which have only recently come from the hands of the carpenters and decorators. They are located in the Planning Block on Ouellette avenue and are fitted up with

the most modern interior wood and wire grill work, the floor being of polished oak.

The officers of the company are: E. C. Walker, President; F. H. Walker, Vice-President; J. Harrington Walker, Treasurer; W. C. Kennedy, Secretary and Dr. S. A. King, Managing Director.

Among the many banking institutions of this city it is a fact to say that none stand higher in the estimation of the people than does the well known financial house of Cameron & Curry.

It would

VIEWS OF WINDSOR—OUELLETTE AVENUE.

THE BRITISH AMERICAN.

THE BEST AND BEST KNOWN HOTEL IN WESTERN ONTARIO.

Since 1838 this Famous Hostelry Has Played an Important Part in the History of Windsor and Has Been the Scene of Many Noted Gatherings.

Probably no establishment in the city of Windsor is more closely identified with the early history and subsequent growth and development of the city than is the British American Hotel.

This famous and popular hostelry came into existence in 1838, when it was established under the name of the "Globe," by Mr. Santamores, a Frenchman. Since that time the name of the hotel has been changed to "American," and afterwards the "British American," by which name it is known today. Since its erection this hotel has been owned and operated by several different parties, all of whom during their respective administrations sustained the excellent reputation of the house and added to its popularity. Among those who have presided as "host" at the British American may be mentioned H. Bee and Louis Davenport and Wm. B. Irons. The last and present proprietor is Mr. J. W. McKee, who assumed control about a year ago.

During its long and successful career the British American has hosted and entertained many illustrious persons, and has been the scene of many noted gatherings and important occurrences. It has always been up-to-date in every respect and today it compares favorably with the best hotels in this section of the province.

The British American has 75 guest rooms, all well lighted, well ventilated and comfortably furnished. The house is heated by steam throughout, and lighted by gas and electricity. This hotel also has an elegant new sample room, which is considered to be the finest in the west, and the stock of choice wines, liquors and cigars is conceded to be the best.

DUCK & HUTTON

A Short Resume of a Prominent Grocery House.

Built Up a Mammoth Business on the Strict Principles of Integrity.

Messrs. Duck & Hutton, dealers in groceries, etc., at 17 Sandwich street have the largest grocery or table supply house in Windsor and is pretty generally understood that they do a large share of the business. Their success is due entirely to the indefatigable efforts of the proprietors and their array of clerks to place in every grocery basket that leaves their institutions goods that satisfy. This policy is strictly adhered to and stands as a motto to their progress. The house of Duck & Hutton was established in 1873 by W. D. Hiron. He continued the proprietorship until 1877 when Messrs. Smith & Duck bought him out, enlarged the business which had com-

VOLLAN'S MILLS.

A Few Words About the Great Flouring Mills.

The main plant of the above firm is at the corner of Douglass and Chatham streets where a branch mill is operated at a distance of a few miles from the city. The latter mill was started in 1894 and the former was founded in 1877. The main building is four stories and

The firm enjoy a big export trade sending large shipments to Quebec, Nova Scotia, Newfoundland, England, Ireland and Scotland. They also do a big local business, supplying the majority of the trade in Walkerville, Sandwich, and Windsor.

It is justly claimed by the firm that their goods are equal to any exported. They owe this claim from reports received from the importers.

Mr. Vollan started in the flour mill business in 1856, seven miles from Windsor at a place known as Vollan's settlement, which was settled in 1838 by Mr. Vollan's grandfather. There are 11 men and four wagons used in doing the mill work and business is steadily increasing. The Vollan's flour is used by every family in this vicinity.

The mill is now managed by Mr. H. P. Vollan.

PAPER BOXES.

Their Manufacture in Windsor a Growing Industry.

Which is Rapidly Extending Its Business to All Parts of the Province.

An industry which has of late years developed into considerable magnitude is that of manufacturing boxes from paper. To be sure paper boxes have been in use for a great many years but the gradual growth of the business has resulted in the making of innumerable shapes, sizes and kinds that a few years ago were not dreamed of and now so very long ago the idea of a man carrying home a gallon of oysters in a paper box would have sounded ridiculous.

In Windsor at 55 and 57 Sandwich st. is located the Windsor Paper Box factory which was founded some years ago by the Ever Ready Dry Storage Co., who sold out last year to Jas. A. Pratt. The latter gentleman is thoroughly educated in the manufacture of paper receptacles. The factory is well equipped with the latest and improved machinery for the quick manufacture of its products.

The particular class of goods that the institution is now devoted to is all kinds of boxes used in the confectionery and drug business and it is the aim of the concern to make the best candy box manufactured in Canada and they are certainly doing it as they receive on this particular box flattering praise from their customers.

The trade of this company is not confined to Windsor and environs but extends over the greater portion of Ontario and is constantly increasing. The mechanical work is under the supervision of foreman John Manzmann whose twenty years in the business makes him a valuable man.

W. J. Cherney.

One of the most progressive grocery men of Windsor and one who has been identified with the later growth and development of the city is W. J. Cherney. Mr. Cherney came here in 1892 from Saratoga, where he had been engaged in the grocery business for several years, and located at 31 East Sandwich st., where for six years he conducted a thriving business until last August, when becoming desirous of securing

direct from the best wholesale and importing houses. His stock of canned fruits and vegetables is large and well selected, and a prominent specialty is made of butter and eggs. In season fresh fruits and produce are kept constantly on hand, also a full line of garden seeds.

A special feature of Mr. Cherney's store is his department of crockery and china, which is one of the choicest collections of beautiful table furnishings in this section of the country. Worthy of special mention in this respect is the fact that Mr. Cherney imports direct from the old countries all his stock of crockery, china and glassware, and so well known has this department of his business become that his store is now referred to as "Cherney's Grocery and China Hall."

Last year the business of this enterprising merchant reached \$38,000, which seems remarkable for one retail store, but the fact that during the last six months Mr. Cherney's business has reached proportionally way above that figure certainly speaks well for the standing of the house in the community, and the excellence of its goods.

CRAWFORD HOUSE.

A Famous Hostelry and Its Fine Apartments.

The Crawford House was first opened to the traveling public in 1875 and immediately secured a strong hold on the people which it has managed to retain up to the present time.

Today the house is run under the able management of H. M. Lane, who is thoroughly conversant with every detail in hotel work.

The Crawford House has accommodations for 150 guests, is lighted by electricity and gas and is heated by steam. The rooms are all tastefully furnished, well ventilated and well heated. The dining room is one of the largest in the city and is cheerful and nicely furnished. A good bar stocked with the best liquors

does not effect the injury that comes from the radiant glow of the electric light. Mr. West also said that all complaints will receive the most careful and prompt attention. Phone 261.

STEAM LAUNDRY.

Combined With a Dyeing and Scouring Works.

A thoroughly equipped cleaning and scouring works is an essential thing everywhere. Just as much so as a laundry. Windsor has the steam dye and scouring works with city laundry in connection and is the largest of its kind in Essex county, utilizing two floors. The various apartments are well equipped with a full line of laundry machinery, the plant being complete and up to date. All kinds of laundry work are executed, including fine shirts, collars, cuffs

and wines that money can buy is run in connection with the house. The Crawford always retained the major portion of the commercial trade an enviable position it holds.

WINDSOR GAS CO.

Something About What the Institution is Doing.

Have 400 Customers and Are Daily Adding to the List—A New Superintendent.

The business of manufacturing gas in this city is carried on by the Windsor Gas Co., whose plant is located on Mercer street, near Wyandotte. The company supply about 400 customers and are doing making use of connections, services for the latter being furnished free for either fuel or illumination.

The company recently placed William D. West in charge of its business. Mr. West was formerly of Mason, Ga., and up to the time of his assuming charge here he was assistant superintendent of distribution for the Detroit City Gas Co., a position that required a careful and capable man. Mr. West has taken a vigorous hold of the affairs of the company and intends to introduce some new or rather modern ideas into its management which will be of value to his employers as well as to the consumers. That he is capable is evidenced by a short conversation with him.

The "Auer light," a London invention, will hereafter be sold by the company for \$2. Hereafter a rental was charged. Moulds will be required for 40 cents. Superintendent West assured The Review that the light was equal to 60 candle power and consumes one-half less than an ordinary jet and gives three times the brilliancy. It is pleasing to the eye and

and ladies' and gents' wearing apparel of any description, in which their trade extends to all parts of Windsor, Walkerville, Sandwich and vicinity. Where goods are collected and delivered free of charge, using two wagons for the purpose.

The firm have also a large trade in family and hotel washing, being patronized by all the various hotels in Windsor, including the Crawford House, British American, Manning Hotel, International, Great Western, Detroit Exchange and Windsor House, also the Crown Inn and Farmers' Rest, in Walkerville, and the Dominion House, Sandwich. They

THE LEADING BICYCLE STORE.

F. J. Parent, 31 Ouellette Avenue, Carries One of the Best Lines of Wheels and Sundries in the County.

One of the best stocks of bicycles and sundries in the county is that handled by F. J. Parent at 31 Ouellette ave., who conducts the only exclusive establishment in the city.

Mr. Parent's business is located in the Fleming block where he has a large saleroom, well stocked with many of the best makes of wheels, including the well known Tribune, the celebrated Rambler, and the world's famous Columbia, besides many others, including a large assortment of second hand bicycles.

In addition to the above Mr. Parent carries a full line of bicycle sundries, prices for the steamer Alberta in twenty hours' time.

Their dye and scouring works in connection are well equipped with all improved appliances, using steam power, with fast colors guaranteed, in any shade desired. All kinds of ladies' and gents' wearing apparel are cleaned, dyed and repaired; gents' clothing repaired and dyed; ladies' dresses dyed and cleaned; kid gloves cleaned and dunnies and red curtains dyed equal to new. Dutch cushions are also cleaned, dyed and curled, while lace curtains are cleaned equal to new goods and put on patent stretchers; in fact, anything in this line receives prompt attention, and buffalo robes are dyed in 48 hours' notice.

This department is under the personal supervision of Mr. W. Albert, and first class work is guaranteed to all patrons. His facilities are such that four or five suits of clothes may be cleaned, dyed, repaired and pressed the same day, and his business in this line extends all through Essex county, enjoying an extensive transient trade. He has been established at his present location for 14 years, commencing in a small way in 1884. His business is now one of the largest in his line, and his trade for '08 was as over, employing a force of seven hands, and orders from outside towns are filled in three days' time.

Mr. Albert is thoroughly up-to-date and if there is new machinery invented that he can use he'll get it.

GEORGE W. MCKEE.

One of the Most Popular Merchants in Windsor.

That George W. McKee is one of the most popular young men in Windsor is an acknowledged fact. His popularity is the outcome of his good nature and his friends among "the boys" are legion. A glance at George is sufficient to establish a confidence at once. He boasts with merit and is a good fellow through and through.

The cigar store which is called George as its owner and proprietor is located at 6 and 8 Ouellette ave., near the ferry docks and is furnished and stocked with the best that the market affords. A

and also does a general repairing and canning business. Worthy of special mention is his bicycle livery as Mr. Parent conducts the only establishment for renting wheels in the city.

Mr. Parent has lately secured a large supply of "Deamie," a new polish for spokes and handle bars, which is said to be the best bicycle cleaner on the market. It removes rust, does not scratch and leaves no dust or dirt. Mr. Parent has been established in his present location two years and is enjoying a phenomenal run of business prosperity which speaks well for his sterling qualities.

ery of a cigar and tobacco man who hands out to his white faced cigarette customer a box of his famous brand stuffed with smoky whisks. No sir, George spurns the spurious, he gives dollar for dollar and you see you feel glad at the same time that you are separating yourself from your money.

"The pipe—You all have hit it once in a while. Hit it hard and then in a dream-like trance have told lies that would almost make Ananias (long dead) drop his shoulders. Well, George does not sell the dope pipe—you get that at Won Long's laundry. The pipe that he does sell, however, is the good old kind that has been smoked many years on this continent before Sir Walter Raleigh introduced the fragrant weed to our forefathers in merry old England. George has 'em in all designs. Has 'em in good wood also in the bum wood, but he won't shove a cheap one on you if you are looking for a good one. The old stand-by, the briar, is among the standard woods and you find in a seasoned pipe that it is as sweet and fragrant as the more expensive.

His line of tobaccos, both smoking and chewing, are above the standard and are carefully selected for his customers. For a cigar McKee's is the place to go. You get it correct from him.

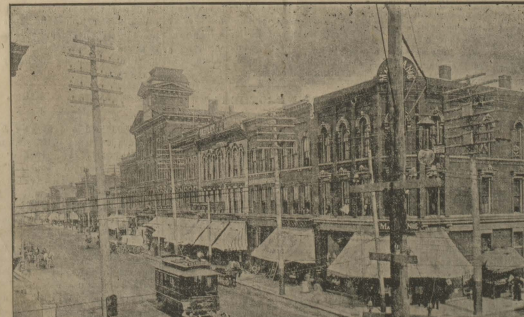

W. A. POND, PHM. B.

One of the Leading Druggists of Windsor.

It would be a difficult task to speak of the drug business in Windsor without bringing to mind the well known name of W. A. Pond, Phm. B., proprietor of the Central Drug Store and the LaBelle drug store on Glenagray ave.

Mr. Pond carries in his store the finest lines in perfumes, toilet articles and everything in the patent medicine world. He also gives special attention to the careful compounding of prescriptions, and when you get it from Pond's you can rest assured it's filled correctly.

Mr. Pond is a graduate from the Ontario college of medicine being a silver medalist and Betsy gold medalist,
